" VT2000 CONVEYOR"

The Ryko Velvet Touch 2000 Conveyor was designed with high volume petroleum locations and fleet owners in mind. This system operates at an unattended wash rate of up to 90 cars per hour!

The Velvet Touch 2000 comes with many standard features yet offers the operator flexibility to design a system that will meet their locations' unique needs. The modular design of the Velvet Touch 2000 allows the system the flexibility to be installed into most wash bays.

Equipment in the Velvet Touch 2000 line includes:

- Underground over/under hydraulic conveyor
- Entrance stop light
- Positioning mirror
- Activation coin box
- Attendant Control Module
- Correlator
- Chemical tire applicator
- Under Car Wash
- Profile mapping arch
- High volume side blaster
- Tall side blaster arch
- Low pressure washer
- Rocker panel washer
- Trifoam detergent arch
- Foam bath arch
- Mitter - front to rear
- Mitter - side to side
- Tall side wrap around washers
- Top washer
- Trifoam wax arch
- Rinse arch
- Wax arch
- R/O rinse arch
- Polish wax arch
- [ThrustPro Dryer](#)

- **Exit light**
