

PetrolSeal

Icon's PetrolSeal is a fast setting, two-part, proprietary polysulfide sealant that provides superior fuel, oil, chemical resistance and corrosion prevention. PetrolSeal is compatible for direct contact with all fuel types, whether liquid or vapor, including all ethanol blends.

FEATURES & BENEFITS

- Adheres Well to All UST Materials
- Extremely Durable and Long Lasting
- One Step Process
- Fast Cure Time
- Compatible With All Fuel Types
- Long Proven Track Record
- 1 Yr Shelf Life
- Versatile as a Sealant, Filler or Repair Coating
- Available in Four Sizes

IAC PS200

Use PetroSeal as a durable sealant, filler and coating for UST equipment. Polysulfide's properties are well documented in the petroleum industry and it continues to be used as a fuel cell lining in aircraft and for many other fuel storage related applications. Its proven track record, durability, and versatility make polysulfide ideal for many different fuel system applications. Although you may expect a long performance life when applied correctly, there is no implied or expressed warranty on the product itself.

Cures in as little as 2 hours depending on temperature
Service temperature range of -40°F to +250°F
Available in 200ml*, 400ml*, 1 qt. and 1.5 gal sizes
MSDS available upon request

*Requires special application guns.
